

# XG-182

**Highly durable and offering superior strength. Combining a host of added features and benefits, the professional range features heavy duty aluminum construction and is load rated at 125kg.**

## 01 /Basic parameters

**Bearing  
250KG**

**Platform Size  
≈0.7×1.5M**

**Height  
≈8-12M**  
**Bottom Size  
≈0.8×1.6M**

## 02 /Features

- Highly customized production, wide range, many uses
- The main lifting mast adopts high strength, high toughness aluminum alloy extruded profiles, high safety and overall weight
- Independent battery design, can be arbitrarily moved to the desired location
- Unique design of manual equipment, remote control lifting system. Manual remote control works within 20 meters
- The uniquely designed triangular bracket supports the legs to ensure stable and reliable use
- The guardrail structure is collectible as a whole, and the 1.5-meter-high four-sided guardrail ensures the safety of operation
- Independent level tester to ensure that workers adjust the balance of work
